# SITUATION SUMMARY

## Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

### Maverick Surf Competition, Half Moon Bay, San Mateo County

- Mavericks Surf Competition will be taking place on Friday, 02/12/16 in Half Moon Bay (San Mateo County).
- This is one of the premier surf competitions in the world, drawing top surfers from all countries.
- There are currently no requests for assistance and no planned EOC activations.

### Weather of Concern

#### **Northern California**

- Beaches will be potentially hazardous Thursday thru Friday morning for portions of the Northern California coast.
  - Threat of sneaker waves Thursday as a westerly swell builds and will persist into Friday morning when the incoming swell peaks.
- A ridge centered over the West Coast will continue to bring above average temperatures and dry conditions to Northern California.

#### **Southern California**

- Light offshore winds are expected to persist throughout the day.
- Offshore flow and high pressure aloft will support unseasonably warm temperatures, and record highs are expected in many locations, with maximum temperatures cooling 1 to 3 degrees each day as the offshore flow weakens.
- Very dry conditions with elevated fire danger can be expected.

### Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Medford Weather:**

A weak front will fall apart as it reaches the coast this afternoon. It may produce some light rain or sprinkles at and just inland from the coast, but nothing much more. Another shortwave will move up through the southwest tonight, and it may touch off some rain showers primarily over the waters and coast, but some light rain can't be ruled out inland as well.

#### **Eureka weather:**

Above normal temperatures will continue through the week, with a modest cooling trend by Friday. Some patchy drizzle is possible this morning along the Del Norte and Humboldt coasts. Light rain is likely across the north Friday and Friday night, otherwise no significant additional precipitation is expected through the weekend.

#### **Reno Weather:**

A persistent ridge of high pressure continues with light winds and above average temperatures through the rest of the work week. Valley inversions will become less established each day with improved mixing by the end of the week, with a slight chance for precipitation across northern Lassen County by the weekend.

#### **Sacramento Weather:**

A few light showers will be possible over the northern mountains Friday through Sunday, otherwise dry and mild through early next week. The next chance of rain for most of northern California comes by the middle of next week.

#### **San Francisco Weather:**

Dry weather along with unseasonably warm weather will continue today. Temperatures will gradually cool through the rest of the week, but remain above normal for February. Dry weather is forecast to continue into next week.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Hanford Weather:**

High pressure will continue to bring dry weather to the central California interior. These conditions will exist for at least the next several days along with patchy night and morning fog in the San Joaquin valley.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

High pressure aloft will continue to weaken, giving way to a weak upper level low pressure passing to the north this weekend. This will result in one last day with possible record heat before a slow but steady cooling trend takes hold through Saturday. Warmer temperatures are expected early next week as high pressure aloft builds back into the region.

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

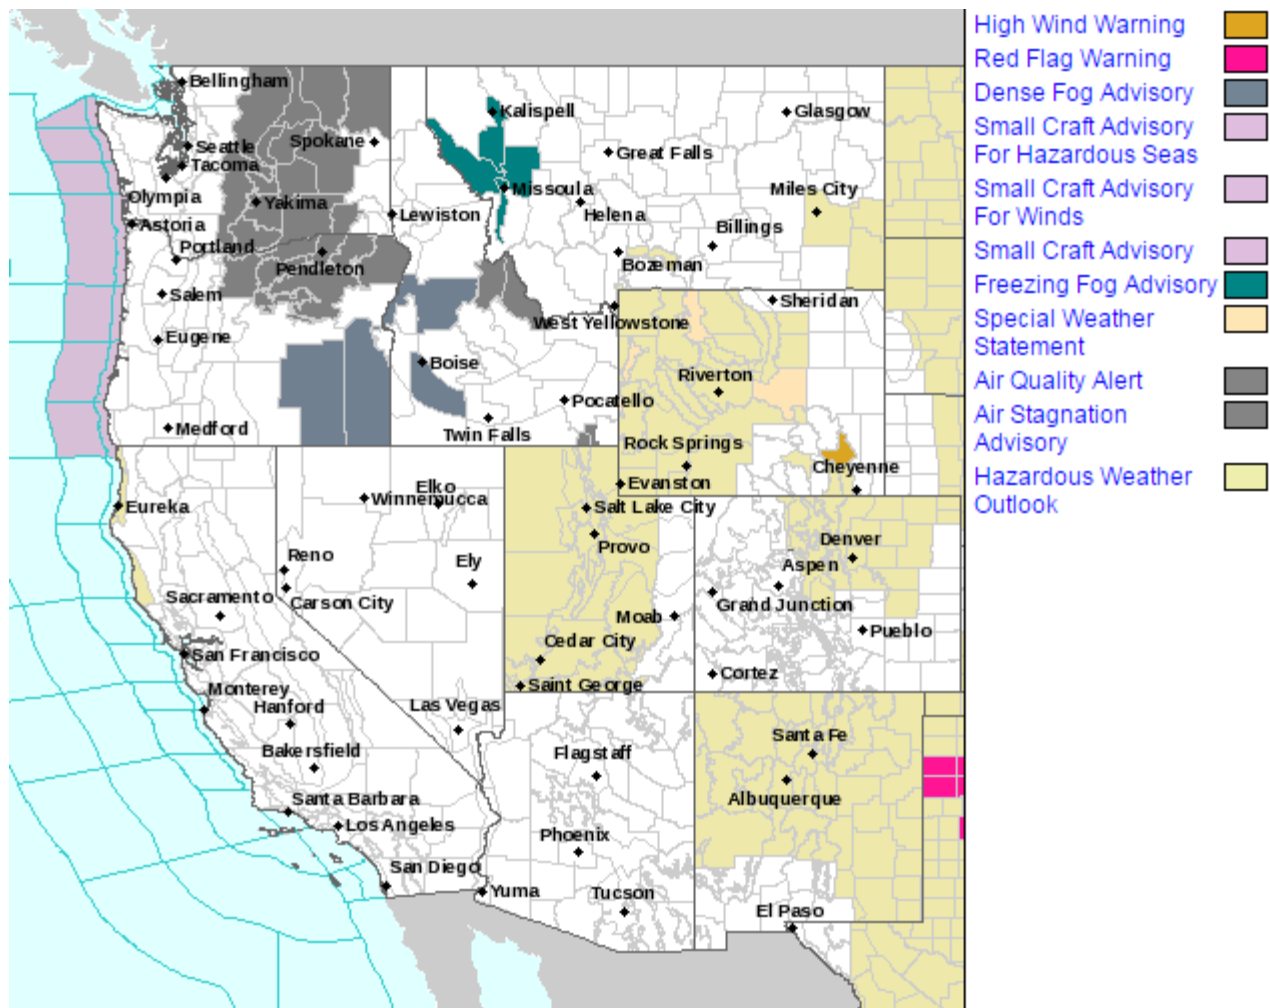

It will be fair and unseasonably warm through early next week under a strong high pressure ridge. By Tuesday and Wednesday next week the ridge will weaken and temperatures will decrease as low pressure approaches from the pacific.

#### **Southeast California Weather:**

Spring like weather will continue across the region through the rest of the week with dry and unseasonably warm weather expected. Scattered high clouds will pass through the area at times with locally breezy conditions.

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**

# California Specialized Training Institute

## CSTI Scheduled Training

**Basic PIO and JIC/JIS (G290-291):** This course is the first in a three part series of Public Information Officer Basic training. The course is designed for people who work with the media in times of crisis and day-to-day media relations. The program emphasizes the importance of developing a Public Information Officer (PIO) team, communications skills, leadership and working in a Joint Information Center using Joint Information Systems.

Participants engage in public speaking exercises and media interview sessions. Classroom and breakout sessions are information intensive and are designed to help participants apply principles and techniques taught in the discussions. Participants will work with representatives from the media and other agencies involved in crisis communications. The class includes certification in the FEMA Basic Public Information Officer Course (G290) and JIC/JIS (G291) courses.

**Course Length: 32 hours**

**Contact us for more information. (805) 549-3535**
